A METHODIST ANNIVERSARY CELEBRATED. The eighty-seventh analyersary of the establishment of Methodism in the village of Williams-burg, now the Eastern District of Brooklyn, was celebrated yesterday in the South Second Street Methodist Episcopal Church, in South Second-st., near Driggs-ave., the site where the first Methodist Church was erected. The church was filled with a large congregation at the opening service, which began at 11 o'eleck, the Rev. A. H. Wyatt, of Norwalk. Conn., a former pastor, delivering the sermon. There were many Methodist ministers present. Three policemen were suspended yesterday by Police Captain Campbell, of the First Precinct, on charges of drunkenness, and will be tried by Commissioner Hayden next week. They are William B. Smith, Francis Yunker and Dominick O'Connor. All three were off duty on Wednesday night and went to the liquor shop of Thomas Grundy, at No. 25 Myrtle-ave., where they became grossly intoxicated. Information was sent to the Adams-st. police station, and Captain Campbell and Sergeant Mora and a patrolman went to the place and put the three policemen under arrest.

A Coroner's jury has found as the result of the inquest in the case of Neil McKechnie, of No. 373 Thirty-ninth-st., who died at the Norwegian Hospital last week, that death was due to a rupture and peritonitis from unknown causes. He was wrestling in a liquor-shop the night before he was taken to the hospital and injured himself.

THE FRUIT OF DEMOCRATIC BALLOTS.

IMPORTANT INDUSTRIES IN SOUTHERN STATES THAT WILL SUFFER FROM THE WILSON BILL.

Baltimore, Nov. 30 (Special).-Prominent coal-mine operators of Western Maryland believe that Senaor Gorman and several Democratic Congressmen of West Virginia and Maryland will oppose the removal of the duty on coal, as proposed by the Wilson bill. Senator Gorman is personally inested in West Virginia mining companies. All in a protest to Congress against handing over the great soft coal business now done in Maryland and West Virginia with New-England to the Canaies. John Wilson, of Black, Sheridan Harry Lee, a Democrat, and president of the Newburg Orrel Coal and Coke Company, agrees ith Mr. Wilson, and further says:
"The Nova Scotia coal mines are owned by the

Canadian Government. A royalty of from 10 to 15

"The Nova Scotia coal mines are owned by the Canadian Government. A royalty of from 10 to 15 cents a ton is paid by the company operating those mines, and thus, through the Wilson bill, the United States will be causing the Canadian Treasury to receive a very large sum of money yearly as revenue from this coal, while the output of the American mines is cut down."

Charles Mackall, president of the West Fairmont Coke and Coal Company, and general manager of the Montana Coal Company, who is also a Democrat, said that if the Wilson bill becomes a law Tennessee, Alabama, West Virginia and Maryland will go Republican at the next election.

Baltimore manufacturers generally find fault with the bill. D. F. Haynes, of the Chesapeake Pottery Company, one of the largest concerns of its kind in the country, said that the reduction of over 45 per cent on the grades of pottery most largely imported would seriously cripple the American indestry. So small was the margin of profit in the manufacture of pottery to-day, on account of home and foreign competition, that any reduction of price from lowering of the duty must come off the wages of the employes. Wages paid to pottery employes on the Continent are about one-third, and in England less than one-half, what the American workmen receive.

N. M. Rittenhouse, of the Baltimore Terra Cotta Works, announces that if the bill passes, the works will either have to shut down or wages be reduced. Baltimore is one of the largest clothing manufacturing centres in the country. Manufacturers here supply New-York, Philadelphia and Boston trade. They are up in arms against the Wilson bill. J. Hamburger & Sons, one of the largest clothing manufacturing centres in the country. Manufacturers here supply New-York, Philadelphia and Boston trade. They are up in arms against the Wilson bill. J. Hamburger & Sons, one of the largest clothing manufacturer workmen only twenty cents a day.

BRUNSWICK THANKS THE COUNTRY.

STATEMENT OF THE YELLOW FEVER RELIES COMMITTEE-OVER SIX THOUSAND PEOPLE ASSISTED.

Brunswick, Ga., Nov. 30.—The Yellow Fever Relief Committee has adopted the following state-

"The expenditures for charity, to those familiar with the circumstances surrounding our people before and during the epidemic, need no explanathe Treasury authorized it. The expenditures of the commissary, beyond the distribution of supplies sent by a generous public, were largely to purchase supplies of which the commissary ran short, and in the purchase of stimulants for the sick and special food for the convalencent. The city treasury, due to bank failures and other causes, was empty. The large expenditures for police sanitation and special sanitation, made necessary by hurri-cane and flood, have fallen upon this committee as the only organized body which could attend to these matters. It was thought wise to keep as many male adults, who must necessarily be fed, at work as possible, thus keeping them out of mischlef and creating the feeling that they were earning the food and money received. Every effort has been made through the preachers of this city, the members of the committee and special canvassers to investigate carefully and distribute rations, money and clothing to the needy, no matter what their circumstances under ordinary conditions had been.

"Confronted by the sad conditions of the last three months, we have dealt with them as best we could, meeting emergencies as they arose. Funds have been practically exhausted at times, with rations on hand to last but three days. Counting upon the generosity of the American people, we have purchased supplies on credit, and our trust has been sustained, for funds and provisions came. The circle of those needing aid widened daily during the first days of the epidemic. Those on the islands and in the country have been considered within the range where assistance should be rendered when needed, and over 6,000 people have received assistance.

"When, upon the partial subsidence of the epidemic, careful investigation of our supplies and funds indicated that we could pull through, thankful to a general distress had come to our aid, we announced that with donations en route we would ask no further aid—that we desired no surplus, and would trust to the future to bring us business and place
